Bias Motivated Incidents Report Discussion

- Sixteen reports were reported for the spring 2015 semester, nineteen reports were reported for summer/fall 2014 semester.

- The sixteen reports received were from University Park (14 reports), Altoona (one report), and Fayette (one report).

- Five reports from University Park were related to harassment, hostile attitude/environment, physical intimidation/assault, and verbal and written comments created from student to student.

- Three reports from University Park were related to harassment, hostile attitude/environment, verbal comments/intimidation created by unknown and nonaffiliated members of the Penn State community.

- Two reports from University Park were related to harassment and hostile attitude/environment from faculty member to student.

- Two reports from University Park were related to professional misconduct from faculty member and academic dishonesty by graduate teaching assistant to student.

- One report from University Park was related to verbal comments from staff to student.

- One report from University Park was related to vandalism of property and written LGBTA comments from student to student.

- One report from Altoona was related to hostile attitude/environment created from student to student.
• One report from Fayette was related to hostile attitude/environment created from faculty to community member.

• As always, confidentiality of identities and information was respected, unless otherwise indicated by the submitter or targeted person.

• Multiple categories often exist for the status of Targeted Persons, Race/Ethnicity, Targeted Issues, and Types of Offense. An effort is made to indicate one choice and which best describes an incident or individual, or how that individual may identify themselves. However, in some instances when appropriate and where overlap exists, more than one category is chosen and indicated. This accounts for the occasional slightly higher numbers within a category than the total number of reports given. In addition, two or more perpetrators may act in concert, two or more submitters may report together on the same incident, and two or more targeted persons may be affected by a bias incident.

Finally, the intended target for a perpetrator may be more than one student, a student organization, the University community in general, or a subgroup of the community. Also, the number of targeted persons involved can be higher than the number of reports made or may not be able to be determined.

This publication is available in alternative media on request. The University is committed to equal access to programs, facilities, admission, and employment for all persons. It is the policy of the University to maintain an environment free of harassment and free of discrimination against any person because of age, race, color, ancestry, national origin, religion, creed, service in the uniformed services (as defined in state and federal law), veteran status, sex, sexual orientation, marital or family status, pregnancy, pregnancy-related conditions, physical or mental disability, gender, perceived gender, gender identity, genetic information, or political ideas. Discriminatory conduct and harassment, as well as sexual misconduct and relationship violence, violates the dignity of individuals, impedes the realization of the University’s educational mission, and will not be tolerated.
