Bias Motivated Incidents Report Discussion

- A total of thirteen (13) incidents were reported during summer/fall 2010. Incidents where students report staff or professors usually are referred to the Affirmative Action Office at University Park.

- Thirteen (13) incidents were reported for the summer/fall 2010 semesters as compared to seventeen (17) reports for summer/fall 2009.

- Twelve (12) reports received were from the University Park campus; one (1) report received was from the Altoona campus.
• As always, confidentiality of identities and information was respected, unless otherwise indicated by the submitter or targeted person.

• Multiple categories often exist for the status of Targeted Persons, Race/Ethnicity, Targeted Issues, and Types of Offense. An effort is made to indicate one choice and which best describes an incident or individual, or how that individual may identify themselves. However, in some instances when appropriate and where overlap exists, more than one category is chosen and indicated. This accounts for the occasional slightly higher numbers within a category than the total number of reports given. In addition, two or more perpetrators may act in concert, two or more submitters may report together on the same incident, and two or more targeted persons may be affected by a bias incident.

Finally, the intended target for a perpetrator may be more than one student, a student organization, the University community in general, or a subgroup of the community. Also, the numbers of those targeted persons involved can be higher than the number of reports made or may not be able to be determined.
